ALNICO CONTROL PANELS is a quality manufacturer, exporter and supplier of power and automation control panels; those comprise of Electrical APFC Panels, Electrical AMF panels, PLC Panels, Drive Panels, Electrical PCC Panels, Electrical MCC panels etc. The product range offered by us finds application in areas like Engineering, Text tile, Pharmaceutical, Defense, Petrochemicals, Processing Plants and others. We also offer Annual maintenance contract of plant.

ALNICO is a customer centric organization. We use advanced process techniques and high-grade raw materials. That makes our products highly competent in any condition. We are dedicated to designing tailor made products and systems with compact and user friendly designs, which makes them quality and cost-effective products. We work on our customers' old designs to innovate new ones. All the products of our company are as per international standards. We mainly believe in the abilities of our manpower as the company has splendid support of skilled designers and engineers. We use proficient machinery. These all accomplish barrier-free field and enable us to accomplish the project perfectly and within the time frame. We are the professionals who believe not only in manufacturing and supplying products but developing a perpetual relation with clients, by providing excellent onsite and offsite service.

VISION

We believe in long term business relationship. Our ultimate aim is to satisfy our clients with our services. We do not compromise with the quality, genuineness and workmanship which leaves a permanent impact on our customers and invariability they recommended our services.

MISSION

"Our team at Alnico Electrical Panels strives to supply our customers exactly what they require in order to be successful i.e. prompt service, products of superior quality and special customized solutions within the best time as well as fair prices".

OUR PRODUCTS

INDOOR OUTDOOR PANELS

Managed by our team of qualified professionals, we manufacture, export and supply supreme quality indoor outdoor Feeder Panels. These panels are mainly installed to the end stream of lighting distribution system and main power. Our team of technical experts uses premium grade components and pioneering technology to manufacture the provided panels. Provided panels are also tested on several quality parameters prior to dispatch. Our clients can easily avail these Feeder Panels from us at reasonable rates.

POWER CONTROL CENTRE

We are manufacturing, exporting and supplying PCC Panel (Power Control Center Panel) that is available with a current carrying capacity up to 6300Amp. This panel is used in various industries like chemical plants, pharmaceutical, refrigeration plant, plastic industry and many more for controlling power fluctuations. This PCC Panel (Power Control Center Panel) is manufactured in our technologically advanced manufacturing unit using fine grade raw materials and advanced technology under the stern supervision of our seasoned professionals.

MOTOR CONTROL CENTER

This MCC Panel (Motor Controller Center Panel) is widely used in various industries for controlling electric motor at low voltage three-phase alternating. With the help of our innovative professionals and advanced manufacturing techniques, we are engaged in manufacturing, exporting and supplying a precision engineered collection of panel that is manufactured using finest quality raw materials. This MCC Panel (Motor Controller Center Panel) can be purchased from us at market-competent prices.

APFC PANEL

This APFC Panel (Automatic Power Factor Correction Panel) is mainly used for reducing energy wastage, losses, penalties caused by electricity boards and improves the required power factor for all loads. Provided panel is manufactured at our advanced manufacturing unit under the supervision of our technocrats by making use of high grade components and contemporary technology. This APFC Panel (Automatic Power Factor Correction Panel) can be purchased from us in varied specifications at affordable prices.

PLC CONTROL PANEL

This PLC Panel (Programmable Logic Control Panel) is widely used in commissioning, industrial automation process and processing unit for controlling production line and is extensively demanded in various industries. Our offered panel is manufactured using premium grade components with the help of technically advanced process under the observation of our highly experienced professionals. This PLC Panel (Programmable Logic Control Panel) can be purchased from us at market-competent prices.

VFD Panel

Empowered by a technologically-advanced manufacturing facility, we manufacture, export and supply a premium quality range of VFD Panel (Variable Frequency Drive Panel). This panel is manufactured using high quality components and pioneering technology under our expert's guidance. By controlling the intensity of electric power provided to the motor, it controls the rotating speed of AC electric motor. Provided panel is also checked on several quality parameters for its functional accuracy. Further, clients can avail this VFD Panel (Variable Frequency Drive Panel) from us at rock bottom prices.

DISTRIBUTION PANEL

We feel pleased to introduce ourselves as a leading manufacturer, exporter and supplier of excellent quality Power Distribution Panel. Provided panel is used as power distribution equipment for distributing, monitoring and controlling electrical power to several circuits. It is manufactured with utmost precision by our professional using optimum grade components with the help of cutting-edge technology. Further, provided panel is checked on various quality parameters by our team of quality analysts to ensure its excellent functionality. We offer this Power Distribution Panel in different specifications at very reasonable prices.

LT BUS DUCT

We have emerged as a leader in manufacturing and supplying in all type of LT and HT electrical panel board. For the fabrication of these products, we use quality grade material and modern technology. Designed and developed under the guidance of experienced professionals in accordance to international quality stand.

Client List

Industries

- Nutris Projects Pvt Ltd
- Skai air Pvt Ltd
- Vadilal industries Ltd.
- Sanstar starch Ltd
